
FASTBUDGET

Case: 1907 Status Report - Column wrapping display issue

A FundTransfer with a long approval comment (without spaces, ie url) now wraps to the next line.

Case: 2082 FASTBUDGET - Dev Entry PDF not displaying budget series correctly

Budget series now displays coreectly on exported PDF document. In previous version it was displaying as a number.

Case: 2528 Fund Transfers - Approval History Comments missing

Approval history comments now display on page when re-submitting a previously rejected Fund Transfer

Case: 2608 Banner - Gurfeed_trans_Desc needs to accept 35 characters

"txtComment" substrings modified to accept 35 characters.

Case: 2659 Budget Batch posting - allow posting batches larger than 9999 records

When posting a batch with more than 9999 records, the system will now split into two batches and post with a single header record. The split will occur at the 9000th transaction and the 9001st transaction will be posted with a different batch number.

Case: 2726 Add Internal Clearing Account check to Batch Select

Select Batch query now checks for internal clearing accounts.

Case: 2729 Report Generator - Allow deletion of reports

Resolved in Case 2148

Case: 2730 Report Viewer/Generator

Reports in the Report viewer can now be sorted A-Z. To have this customized at your site please contact Millennium.

Case: 2851 Development with Actuals large column display

Fixed bug on Development with Actuals drilldown where longer column descriptions were wrapping and causing the header not to grow properly.
