Case: 1813 Cardholder Administration - Allow client customization of sort order

Clients are now able to customize the sort order on the Cardholder Administration page as a site setting.

Case: 2022 Create Batch History detail page

On the Administration menu, a new page has been added and you can now view historic batches.

Case: 2173 Allow client customization of Coding Selector lists

Custom rules can now be applied to the FOAPAL drop-downs throughout the application.

Case: 2712 Update Batch History summary page

See case 2022

Case: 2795 View Batch - Error on edit

Fixed an error preventing transactions from being edited and saved before posting on the Batch Posting page.
