**Case: 1895 Add Watermark to PDF's for Requisitions and PO's**

Clients can now add a 500px by 500px gif called Watermark.gif to the CLIENT\_IMAGES folder if they wish to have a water mark image display on the pdf image of requisitions created in FAST WebReq.

**Case: 2527 Errors generated when using font attributes on notes control**

Added missing file (MCSLNav\_HelpPalette.htm)

**Case: 2761 WebReq Status - Error on XML export**

Two columns have been renamed to NATES and ATTACH, respectively. Their column widths adjusted from 25 to 50.
