
FASTRESEARCH

Case: 1214 Page not holding contract #

Contract number is now maintained when moving from the invoicing form to the Grant form.

Case: 1887 Add balance to Invoice Schedule form

Added a new summary line to the Invoice schedule form. This calculation can be customized to meet individual needs depending on how revenues and expenses are treated at each institution.

Case: 2133 Change how Researchers are assigned to Grants

On the Researchers form, the Department is now located below the main information. Multiple departments can now be added for a Researcher.

On the Grants form, Dept is now a drop-down list. When a Researcher is selected, the Dept list is populated with all departments assigned to the researcher.

Case: 2507 Benefits Code page - No close button on top right, and footer is transparent

You can now close the Benefit Codes form by clicking the X on the top right OR the "Return to Rollup Maintenance" button.

Footer is now solid and no longer transparent.

Case: 2642 Attributes Query - Object reference error with "Can have any..." selection

If no values are selected with the "Attributes with specific values" filter it now refreshes the page.

Case: 3040 Error thrown on attributes tab with alpha-numeric contracts

A bug was introduced in version 3.1.0 which prevented the custom attributes section of the Grant Maintenance form from properly displaying when the contract number was non-numeric. This has been fixed.

Case: 3060 Grant Additional Info form not drawing correctly when clicking Add New Item

The change was made in javascript by hiding the div holding the banner coding (divBannerCoding).

Case: 3084 Attribute Edit - Hyperlink value disappears

Original hyperlink now stays in the textbox when it is edited and does not have to be retyped.
