
FASTFINANCE

Case: 7846 Finance - Running multi-charts

On Finance menu page, you now have the option to run either single chart reports or multiple charts reports. The multiple charts report on SUMS page will give a grand total of all charts for each report option selected.

Case: 7932 Finance - new functionality for invoice query screen

New option on the Finance menu called "Invoice query". You can search for invoices using any combination of: Payee Name

Payee Invoice

Invoice Number

Fund-Orgn

Date

Dollar Value

Case: 7933 Finance - Document Query Type add new option "Cash Received"

On Document Type Query, 'Cash Received' has now been added as a document type.

Case: 7936 Activity Date on CFOAPAL_Detail

Activity Date column has been added to CFOAPAL_Detail report.

Case: 8047 Finance exports add trailing space to Orgn fields

Orgn fields no longer have a trailing space and the end of the code so data can now be used for imports in other applications.
